

EYE WITNESSES TELL

The Story of the Shooting of Dr. Baird by Dr. Garrison.

RAPID PROGRESS BEING MADE.

Very Little Interest Manifested by the Public, So Far as Attendance in the Court Room is Concerned.—At the Present Rate of Progress the Case May Go to the Jury on Saturday.

Very fair progress was made yesterday in the Garrison trial, and several very important witnesses were examined, among whom were several eye witnesses. Such good time is being made that it is fully expected that the case can be given to the jury on Saturday. The testimony is fresh in the minds of the attorneys and they all seem to know just about what to ask the witnesses. The latter answer with more directness, and but very little time is lost in getting at what the witnesses know. Judge Paul is prompt in his rulings and holds the lawyers down to business.

Court met promptly at nine o'clock, and the jury was taken up to view Eleventh street and the spot where Dr. Baird was killed. The points where the different eye witnesses stood were pointed out to the jury. At twenty-five minutes past ten o'clock the jury returned to the court room.

Mr. Howard made the opening speech to the jury, and claimed that the evidence to be produced by the state would prove that the killing of Dr. Baird by Dr. Garrison was a case of murder in the first degree, but as, owing to the recent decision of the court, the state could not ask for a verdict of murder in the first degree, it would ask for one of the next and lower grade, murder in the second degree.

Colonel Arnett followed for the defense, and said that the killing of Dr. Baird was done by Dr. Garrison in self-defense, and that the defense would prove it. He explained the various grades of murder.

Captain Dovenor made the closing preliminary statement for the state. The capital finished at half past twelve o'clock, and adjournment was had until two o'clock.

THE TESTIMONY BEGINS.

The afternoon session began at two o'clock. County Physician L. D. Wilson was the first witness called. Having performed the post mortem examination on Dr. Baird's body, he testified that two bullets had pierced the body, one going through the chest in a diagonal direction, severing the carotid artery, and the other entering the head back of the right ear, and coming out at the eye. The wound that severed the carotid artery was fatal, the witness said, and the one that entered the head might have been fatal, or might not have been fatal. Dr. Wilson's testimony was the same as in the last trial.

Albert Mager, undertaker with Friend & Son, testified to having prepared for burial the body of Dr. Baird. He identified the overcoat and other garments, which he had removed from the body. At the request of Mr. Howard the witness put the overcoat on and buttoned it up. He showed the jury where the bullets had torn a hole in the coat and the lapel of the coat, indicating that the coat was buttoned at the bottom lapel.

City Engineer Frank Hoge identified a plat of Eleventh street prepared by him from actual surveys. The door to Prager's store, the window at which the Walton children and Nell Laing sat, and other points from which eye witnesses saw the shooting, were shown on the plat.

Miss Lottie May Walton, an eye witness, who lives with her parents over Hayman's store, at the southeast corner of Eleventh and Main streets, said that on the 7th of March, 1891, she saw Dr. Baird drive up in his buggy, get out on the north side of the buggy, walk to the horse's head, stoop down to tie the hitching strap. He raised up suddenly and his hands fell to his side. At this moment, the witness said, she saw Dr. Garrison standing east of Dr. Baird with a revolver raised. Dr. Garrison shot, and Dr. Baird took a step forward and turned his body as if to go into Prager's store. Dr. Garrison fired again, and Dr. Baird staggered into the store.

On cross examination Miss Walton's testimony was not shaken, though counsel for the defense tried hard.

OTHER EYE WITNESSES TESTIFY.

French Walton, a brother of the preceding witness, testified that he was in the room with his sister and Nell Laing. His attention was attracted to the window by a yell, and looking out he saw Dr. Baird standing on the north side of the street, near Prager's store. He saw Dr. Garrison standing east of Dr. Baird with his pistol leveled at him. Dr. Garrison fired, and almost instantly thereafter shot again. Dr. Baird was in the act of turning when the second shot was fired, and walked into Prager's store.

Cross-examined by Colonel Arnett the witness said he thought the yell he heard came from Dr. Garrison. Dr. Baird had nothing in his hand.

Nell Laing, another eyewitness, said he was sitting at the east side of the window in Walton's kitchen, with Miss Lottie and French Walton. He heard a shot fired, and looking across the street he saw Dr. Baird standing north of the hitching ring. He saw Dr. Garrison fire and Dr. Baird staggered into Prager's store. Dr. Baird, the witness said, had no weapon in his hands, and made no demonstration of any kind. Dr. Baird was not at the ironing east of Prager's store when he was shot, and he made no motion toward Dr. Garrison, neither with his hands, nor by stepping toward him.

Mrs. Emmet Deloe testified that she was at the window in her apartments over Hamm's furniture store, at the time of the shooting. She heard a shot and looking up she saw Dr. Garrison in the act of taking deliberate aim and fire. When he fired the second shot Dr. Baird was going into Prager's store, and his face turned partly toward Main street, with his back toward Dr. Garrison. Dr. Baird had no weapon in his hands and made no threatening demonstration of any kind toward Dr. Garrison.

Mrs. Deloe was cross-examined by Senator Summerville, and was on the stand when court adjourned.

No other witnesses have the merit by which Hood's Sarsaparilla has won such a firm hold upon the confidence of the people.

No other combines the economy and strength which make "100 Doses One Dollar" true only of Hood's Sarsaparilla. No other possesses the Combination, Proportion and Process which make Hood's Sarsaparilla peculiar to itself.

CIRCUS TRAIN DITCHED.

Four Showmen Killed and Five Injured in Kansas.

ATCHISON, Kas., May 17.—The first section of Ringling Brothers' circus train, east bound, on the Central Branch Railroad, was ditched one mile east of Concordia at 2 o'clock this morning. Four showmen were killed and five badly injured. The accident occurred while the train was crossing a small culvert. The engine passed over in safety, but the structure gave way with the first car. Several cars were piled up in the stream. About twenty head of stock were drowned. The dead bodies have been taken from the wreck. A wrecking crew left Atchison for the scene of the accident at 4 o'clock and assistant chief surgeon Farrar left shortly afterwards on a special train. The recent heavy rains caused the culvert to weaken.

Mr. S. G. Derry

Of Providence, R. I.,

Widely known as proprietor of Derry's Water-proof Harness Oil, tells below of his terrible sufferings from Eczema and his cure by

HOOD'S

Sarsaparilla

"Gentlemen: Fifteen years ago I had an attack of inflammatory rheumatism, which was followed by eczema or salt humor, breaking out on my right leg. The humor spread all over my legs, back and arms,

A Foul Mass of Sores,

swollen and itching terribly, causing intense pain if the skin was broken by scratching, and discharging constantly. It is impossible to describe my suffering in those years of agony and torture. I spent

Thousands of Dollars

in futile efforts to get well, and was discouraged and ready to die. At this time I was unable to lie down in bed, had to sit up all the time, and was unable to walk without crutches. I had to hold my arms away from my body, and had to have my arms, back and legs bandaged by my faithful wife twice a day.

"Finally a friend who was visiting at our house, urged me to take Hood's Sarsaparilla. I began by taking half a teaspoonful. My

Stomach Was All Out of Order

But the medicine soon corrected this, and in six weeks I could see a change in the condition of the humor which nearly covered my body. It was driven to the surface by the Sarsaparilla, the sores soon healed, and the scales fell off. I was soon able to give up bandages and crutches, and a happy man I was. I had been taking Hood's Sarsaparilla for seven months; and since that time, nearly two years, I have worn no bandages whatever and my legs and arms are sound and well.

The Delight

of myself and wife at my recovery it is impossible to tell. To all my business friends in Boston and over the country, I recommend

Hood's Sarsaparilla

from personal experience." S. G. DERRY, 45 Bradford street, Providence, R. I.
